

# QUAMBY PLAINS PERFORMANCE CORRIEDALES

## CELEBRATING 100 YEARS

**Monday ▪ 20<sup>th</sup> November, 2017 ▪ 2pm**  
**‘Quamby Plains’, Hagley, Tasmania**

### **History**

Stud founded in 1917 by Compton Archer and this year we are celebrating 100 years 1917-2017. A member of the Corriedale Performance group utilizing LAMBPLAN, as well as being part of the ‘Cross Tasman Analysis’.

### **Shearing**

All rams are shorn on the 3<sup>rd</sup> of March to put them on an equal footing. The Rams are then shorn again on the 2<sup>nd</sup> August, when all fleeces were weighed and tested. The average micron for the 2016 flock is 25.

### **Health Status**

This stud is Brucellosis Accredited free and Quamby Plains rams are vaccinated for OJD and have been vaccinating since 2009.

### **Freight**

Free freight to Melbourne.

Rebate: – 3.5% Rebate to outside agents introducing buyers in writing 24 hours prior to sale and settling within 7 days of date of invoice.

**2017 SALE TEAM**

## Quamby Plains Sires

**14-276** – Is Quamby Plain's number 1 sire and is proving to be an outstanding sire. He is currently ranked **Number 1** in Australia in the Elites Top Current Sires DP\$ Index. He has an attractive style white fleece and has exceptional growth and EMA.

**14-0296** – A high performance son of Wattlebank 12-371. He is an excellent upstanding ram, with great constitution and bright fleece.

**14-0274** – Another stylish wool son of Wattlebank 12-371, with great shape.

**14-0324** – This sire was selected for his low micron, wonderful style fleece. It has great white colour. As a one year old ram he was 21 micron.

**14-0059** – Is an AI ram from Nayook South, South Australia, we used. He was chosen for high fleece weight and very good PWT.

**13-0393** – Our number one ram from the 2013 drop. He is outstanding type, with a large frame, very long carcase, open face and great feet. He has very soft, white fleece with great style. He has bred well for number of Corriedale studs, breeding excellent growth and good carcase shape.

**12-0371** – Last of the semen from New Zealand Wattlebank ram we used. He has done an excellent job at Quamby Plains. Great shape and structure, and stylish wool.

## Corriedale Performance GOLD, SILVER and BRONZE

The Performance Corriedale Group has created a system to identify their top rams for buyers. The Rams ranked in the top 10% of the LambPlan Dual Purpose \$ Index (DP\$) for the breed are known as:

### **CORRIEDALE PERFORMANCE GOLD**

The Silver rams will be in the next 15% on the Dual Purpose \$ Index – 75 - 90 percentile range and known as:

### **CORRIEDALE PERFORMANCE SILVER**

The Bronze rams are those above average performance in the 40-75% on the Dual Purpose \$ Index and known as:

### **CORRIEDALE PERFORMANCE BRONZE**

This year's Quamby Plains Sale Team has: **15 Corriedale Performance GOLD**  
**8 Corriedale Performance SILVER**  
**8 Corriedale Performance BRONZE**
